

The Society of Women Engineers Boston Section Presents

"Celebrate Women in STEM"

For: Students in grades 5 thru 9

Date: Sunday, December 11, 2011

Time: 1:00 p.m. to 3:00 p.m.

Location: MIT Lincoln Laboratory in Lexington, MA

Cost: \$5/Attendee

Register: <http://sweboston.org/celebratewomen/>

The Society of Women Engineers (SWE) Boston section is celebrating female scientists, engineers, and mathematicians with the "Celebrate Women in STEM" series.
STEM = Science, Technology, Engineering, and Mathematics

Catherine "Cady" Coleman is a chemist, a former United States Air Force officer, and a current NASA astronaut.

Dr. Coleman is a veteran of two Space Shuttle missions - Expedition 26 & 27. In her initial space flight, Coleman orbited the Earth 256 times, traveled over 6 million miles, and logged a total of 15 days, 21 hours, 52 minutes and 21 seconds in space!

Students in grades 5 thru 9 are invited to hear her amazing story and participate in a fun game show featuring science, engineering, and mathematics questions. There will also be smaller break-out sessions with Dr. Coleman for candid discussions and Q&A. Game show participants will be chosen randomly from those students who volunteer.

Parents/Guardians and younger/older siblings are welcome but **not** required to attend the presentation and watch the game show as non-participants. All non-participants must be 18 years of age or older OR be accompanied by a parent/guardian.
